Mr. Nick Hammonds
c/o Davis, Bowen, & Friedel, Inc.
1 Park Avenue
Milford, DE 19963

RE: Olde Town at White's Pond

Dear Mr. Hammonds:

A Sediment and Stormwater Management Plan has been reviewed for compliance with the Sediment and Stormwater Regulations and is approved with conditions (see attached). Enclosed herein please find a copy of the approved application form and approved plan sets. Please retain a copy for your use and provide the contractor with a copy to be retained onsite at all times. Failure to keep an approved plan onsite is a violation of the approved plan.

Approval of a Sediment and Stormwater Plan does not grant or imply a right to discharge stormwater runoff. The owner/developer is responsible for acquiring any and all agreements, easements, etc., necessary to comply with State drainage and other applicable laws.

This plan approval pertains to compliance with the *Delaware Sediment and Stormwater Regulations*. Please understand that the approval of this plan does not relieve you from complying with any and all federal, state, county, or municipal laws and regulations.

As of January 1, 2014, the Sussex Conservation District began collecting financial guarantees to ensure the construction of stormwater management practices is accomplished in accordance with the approved sediment and stormwater plan. Please refer to the SCD Policy on Bonds located on our website at Sussexconservation.org. If you have any questions concerning the aforementioned, please do not hesitate to call 302 856-7219.

Sincerely,

Jessica Watson

Jessica Watson
Program Manager

JW/jmg

CONDITIONS OF APPROVAL

NOTIFICATION

1. This approved plan will remain valid for 5 years from the date of this approval. If construction does not begin within five years, the approved plan will be considered to have expired, and must be resubmitted to the District for a new review. In addition, if work is not completed within the five-year timeframe, the District must be contacted and a request for an extension submitted. Depending on regulation changes, a new plan may need to be submitted to ensure that all stormwater management facilities are constructed to the most recent standards.
2. Submittal of the Notice of Intent (NOI) for Storm Water Discharges Associated with Construction Activities together with this approval of the detailed Sediment and Stormwater Plan provide this project with Federal permit coverage to be authorized to discharge storm water associated with construction activities. It is the owner's responsibility to ensure that permit coverage remains valid throughout construction by submitting the NOI fee annually as requested. The developer is responsible for weekly self-inspection reporting to be retained onsite.
3. Notify the Sussex Conservation District Sediment and Stormwater Management Section of your intent to begin construction in writing five (5) days prior to commencing. Failure to do so constitutes a violation of the approved plan.

CHANGES

4. This project is to be undertaken in accordance with the plans submitted and as approved. If changes are necessary at any time during the completion of the project, submit revised plans, prior to further construction, to the Sussex Conservation District Sediment and Stormwater Program for review and approval of the revision.
5. Should ownership change during the construction period, a revised plan must be submitted for approval showing the new owner's signature on the owner's certification. In addition, a Transfer of Authorization form must be submitted to DNREC to transfer Federal permit coverage to the new owner.

CONSTRUCTION AND CLOSEOUT

6. A pre-construction meeting must take place before any land disturbing activity begins. The meeting may take place on site and be attended by the owner, contractor, design consultant, Certified Construction Reviewer and Sussex Conservation District Sediment and Stormwater Program Construction Reviewer. The owner or the owner's designee shall contact the Sussex Conservation Construction Reviewer to schedule the pre-construction meeting.
7. Keep available onsite, during all phases of construction, a copy of the approved Sediment and Stormwater Management Plan.
8. Keep available onsite, during all phases of construction, copies of the Developers weekly self-inspection reports and/or the CCR Reports.
9. Any sediment transported off-site to roads or road rights-of-way including ditches shall be removed. Any damage to ditches shall be repaired and stabilized to original condition.
10. Grading shall not impair surface drainage, create an erosion hazard, or create a source of sediment to any adjacent watercourse or property owner.
11. Failure to implement the permanent stormwater management practices as mentioned herein constitutes a violation of the conditions of this plan approval; it may result in the suspension or revocation of building permits or grading permits issued by the local jurisdiction; and it may result in legal action by the DNREC to bring the site into compliance with the approved Sediment and Stormwater Management Plan and the *Delaware Sediment and Stormwater Regulations*.
12. The permanent stormwater management facility or facilities must be constructed and accepted by the Sussex Conservation District Sediment and Stormwater Program prior to final closeout of the project site. Post construction verification documentation of the stormwater management facility or facilities must be completed as soon as construction of the facility or facilities is complete so that any necessary modifications may be made during the construction period.

DETAILED SEDIMENT AND STORMWATER MANAGEMENT PLAN APPLICATION

NAME OF PROJECT: White's Pond Meadow
PROJECT DESCRIPTION: 85 Single Family homes with Clubhouse
LOCATION OF PROJECT: S/E side of Freeman Highway and S side of Gills Neck Rd
PROJECT TAX MAP NUMBER: 3-35-8.00-46.00, 3-35-8.00-53.00
PROJECT COORDINATES (center of site-decimal degrees) LAT: 38.765251 LONG: -75.139791
TYPE OF PROJECT: Residential WATERSHED: Delaware Bay
NUMBER OF LOTS: 85 TOTAL ACRES: 80.6 DISTURBED ACRES: 37.00

SUSSEX CONSERVATION DISTRICT APPROVAL

REVIEWER: _____ DATE: _____

APPROVAL:  DATE: 5/13/2021

If ownership of this project changes during the construction period, Sussex Conservation District will require a new signed owner's certification statement.... In addition, the authorization to discharge stormwater under the regulations Part 2 Special Conditions for Storm Water Discharges Associated with Construction Activities, must be transferred by the original owner to the new owner, please contact DNREC for assistance at 302-739-9921.

JUL - 3 2021

OWNER/DEVELOPER CERTIFICATION

- I/We certify that the information on this form and the attached plans are true and accurate to the best of my/our knowledge.
- I/We understand that DNREC/Delegated Agency may request information in addition to that set forth herein as may be deemed appropriate in considering this application.
- I/We will abide by the conditions of this approval as issued.
- I/We hereby certify that all clearing, grading, construction and/or development will be done pursuant to the approved plan, and that all responsible personnel involved in the land disturbing activities will have a Sediment and Stormwater Management Certification from DNREC/Delegated Agency.
- I/We hereby authorize the right of entry for periodic on site inspection by DNREC/Delegated Agency personnel and/or authorized agents.

OWNER/DEVELOPER SIGNATURE:  DATE: 5/26/2020
OWNER/DEVELOPER PRINTED NAME: Nick Hammonds obo Showfield, LLC

AGENT AUTHOIZATION

(If this authorization form is completed with the application, all future correspondence may be signed by the duly authorized agent.)

I, _____, hereby designate and authorize the following identified agent to act on my behalf in the processing of this application and to furnish any information that is requested.

AGENT NAME: _____
